 **HOUSE of COLOUR**

It is a powerful thing to dress with confidence, in colours that make you glow and in styles of clothes that express who you are on the inside. Colour and Style is a silent language, affecting your mood and how others perceive you. At House of Colour, we help you discover the most authentic version of yourself, leaving you feeling more visible, empowered, and confident than ever. In this talk I will explain how Colour Analysis works and how we figure out the styles of clothes that suit you best.

Join me as I share the joy of Colour and Style!

Visitors welcome, £3, meeting starts at 2.30pm
